

Adding themes to pdf

Sitemap Customised PDF

Theme Fill Selections

Having chosen 'Sitemap' as the Product, 'Customised' for Size and 'PDF' for print-version format, there are further choices available:

Choose the colours for the mapping (Also refer to the other document about colour choices)

- (1) There is a choice to 'Remove Vegetation Symbols' from the mapping (example: Symbol for trees)
- (2) Select 'Theme Fill' to activate the further options
- (3) Theme fill options highlight 'Water' features or 'Vegetation' features
- (4) Select the 'Go' button to proceed with your selection.

The image above uses the 'Building Fill' colours and 'Water' and 'Vegetation' theme fills selected.
