

## Creating an A3 pdf

## Sitemap A3

Sitemap is available in an A3 size in portrait or landscape orientations. In the 'Define Product' tab and 'Product' mode - do the following:

- (1) With 'Sitemap' already selected, change the size to 'A3'
- (2) Then choose a scale (1:500, 1:1250 or 1:2500)
- (3) Sitemap A3 is available in two orientations – choose 'Portrait' or 'Landscape'
- (4) Specify your preferred format 'PDF' for prints or 'TIFF' for raster data/e-mail
- (5) Your last choice is your colour selection – Please review the additional document for more about this choice.
- (6) Press the 'Go' button to proceed with your full selection.

**Please Note:** There are different map extents for the Sitemap A3 product based on scale and orientation used – please see the additional document about map extents.
