

OS Sitemap Licensing

There are two types of licence available with OS Sitemap:

- **Internal Business Use (IBU)**
- **Plan, Design and Build (PDB)**

The IBU Licence is the default licence for the Mapping and Data Centre OS mapping – with a licence period of one year only.

The PDB Licence varies from the IBU Licence in seven main ways:

1. Data Format

This licence applies to Sitemap DXF Data orders only. The IBU Licence covers DXF and TIFF data formats (OS Sitemap and OS Landplan).

2. Licence Period

Licence periods are available for: 1 year minimum, 1.5 years, 2 years or 2.5 years maximum.

3. Licensed Use

PDB Licence is 'Project' focused and a Project name must be given at the time of purchase. The rights granted are instead of, not additional to the Standard Licensed Use rights.

4. Data Sharing and Terminal Use

This licence permits the sharing of the Ordnance Survey Data with other companies or individuals (contractors) who are working on the same project. Ordnance Survey Data is only available for use on up to 40 terminals (laptops, PC, Workstations) per project.

5. Archiving Rights

The Ordnance Survey Data for a project can be archived for a period of 13 years.

6. Area Limitation

Each map order, per project, has a maximum limit of 6 sq.km (600 hectares).

7. Display and Promotion

The licence does not provide rights for the customer to publish Ordnance Survey Data for display and/or promotional purposes.
